

Daniel Andres Jimenez Riveros, MSc-MA

Vancouver, BC, Canada | da.jimenez166@gmail.com | linkedin.com/in/daniel-jimenez-78500117a

Professional Summary

AI/Full Stack Engineer with 5+ years of experience specializing in AI-driven solutions, cloud-native applications, and scalable backend systems. Expertise in designing end-to-end AI platforms using LLMs, RAG systems, and distributed computing. Proven track record in full-stack development with React, Python, and NodeJS. Proficient in cloud technologies (AWS/Azure), microservices architecture, and real-time data processing pipelines.

Work Experience

Arkangel AI, Remote

Senior Machine Learning Engineer

June 2024 - Present

- **Targeted \$12B+ LATAM healthcare market** by developing an AI agent for searching information from long context Electronic Health Records (EHR) using LLMs, RAG techniques, langGraph and FastAPI.
- **Generated up to \$50k monthly revenue** by architecting cloud-native ML pipelines (AWS SageMaker, Lambda, S3, cloudformation) for training tabular data models, building a scalable ReactJS platform that reduced infrastructure costs by 50%.
- **Reduced time and cost by 70%** by building an invoice checking system using VLM and computer vision models for healthcare institutions to automate provider and materials verification processes.

Insightly, San Francisco, CA & Colombia

AI Consultant

March 2025 - Present

- **Impacted 1,000+ legal cases** by consulting on AI agent technology implementation for a private legal company's case management system, recommending FastAPI, NextJS, LangGraph, and Claude integration.
- **Managed a team of junior AI developers** to build AI-driven products, providing technical guidance and mentorship to accelerate development timelines and ensure best practices implementation.

The University of British Columbia, Vancouver, British Columbia, Canada

Graduate Research Assistant

March 2024 - August 2024

- **Achieved 90% recall in Alzheimer's detection model** by developing deep learning algorithms through transformer-based models, utilizing pytorch, NLP and speech recognition models.

Rocketbrew, Vancouver, British Columbia, Canada - Co-op

Computational Linguistic Engineer

April 2024 - July 2024

- **Developed automated web crawler software for 10,000+ websites using LLMs and traditional NLP**, extracting valuable information from potential leads' websites.
- **Built and maintained a comprehensive knowledge database with information on 8,000+ companies**, implementing NoSQL (MongoDB) and SQL solutions for efficient data storage, retrieval, and real-time analytics.

AMAZON, Remote

Software Developer Engineer

July 2022 - August 2023

- **Managed 2 junior developers** while leading full-stack development of customer service dashboards, implementing efficient ML inference pipelines using JavaScript, ReactJS, D3.js, Redux RTK, and microservices architecture.
- **Empowered over 300+ e-commerce leaders** by architecting scalable backend services and RESTful APIs in TypeScript, ExpressJS, and NodeJS, integrating AI-driven insights and real-time data processing capabilities.

Information Technology Intern

January 2021 - July 2021

- **Benefited 9,000+ Amazon employees** by developing full-stack analytical tools for internal use, leveraging JavaScript, ReactJS, Flask, and NodeJS with real-time data processing capabilities.
- **Conducted comprehensive analysis of 500,000+ customer service transactions** using Python data visualization libraries (Pandas, Matplotlib) and implemented automated data aggregation systems to extract actionable insights.

AQSTICA S.A.S, Bogotá, Colombia

Business Intelligence Analyst

February 2018 - November 2020

- **20% improvement in targeted marketing and audience segmentation** using unsupervised learning techniques, predictive modeling in Python, and implementing intelligent analytics platforms.
 - **Enhanced data quality by 25% and cut processing time by 40%** by designing and implementing end-to-end data pipelines using Python, SQL and MongoDB with automated data processing workflows for large-scale analytics.
-

Education

University of British Columbia, Vancouver, Canada - Master of Data Science in Computational Linguistics
Universidad de los Andes, Bogotá, Colombia - Master in Information Technology - Bachelor in Industrial Engineering - Bachelor in Arts
Fundacion Universitaria Jorge Tadeo Lozano, Bogotá, Colombia - Graduate Diploma in Project Management

Awards & Achievements

- COLFUTURO Scholarship 2023
- Data Science for All (DS4A) 2018

Skills

AI & Intelligent Systems: LLMs (GPT-4, Claude, Gemini), RAG Systems, FAISS, LangChain, Advanced Prompt Engineering, Chain-of-Thought, AI Model Validation, Transformer Models | **Programming Languages:** Python, Java, JavaScript, NodeJS, ExpressJS, ReactJS, TypeScript, Spring Boot | **Cloud & DevOps:** Azure Cloud Services (App Services, Azure Functions, Blob Storage, Cosmos DB), AWS (SageMaker, EC2, S3, Lambda), Docker, Kubernetes, CI/CD Pipelines, Terraform | **Data Engineering & Analytics:** MongoDB, NoSQL, MySQL, Redis, BigQuery, Elasticsearch, Distributed Systems, Real-time Processing, Data Pipelines | **Frontend & Backend:** ReactJS, FastAPI, Microservices Architecture, RESTful APIs, Real-time Data Visualization | **Soft Skills:** Cross-functional Collaboration, Team Leadership, Client Engagement, Problem-solving, Excellent Communication, Fast-paced Environment Adaptability
