

Daniel Andres Jimenez Riveros, MSc-MA

Vancouver, BC, Canada | da.jimenez166@gmail.com | linkedin.com/in/daniel-jimenez-78500117a

Professional Summary

Data Scientist and former Software Developer at Amazon, specializing in machine learning and NLP. Aspiring to further my career in AI, with a focus on Deep Learning. Proficient in using AWS for scalable solutions

Work Experience

Arkangel AI, Remote

Senior Machine Learning Engineer

June 2024 - Present

- **Achieved a 86% recall in early disease detection** by conducting a research on AI-driven risk factor extraction that leveraged **prompt engineering, large language models (LLMs), and LangGraph** on electronic health records.
- **Impacted more than 3k patients by achieving over 91% validation accuracy in training deep learning and Machine Learning models** for detecting rare diseases by automating hyperparameter tuning and customizing network architectures to address specific datasets.
- **Reduced operational costs by 20% for a healthcare institution** by leveraging a LLM vision model to process medical invoices, utilizing OpenAi Textract, EC2, S3, Azure Document Intelligence and NLP techniques.

The University of British Columbia, Vancouver, British Columbia, Canada

Graduate Research Assistant

March 2024 - August 2024

- Optimized a structured dataset from 700K newspaper articles using **advanced prompting techniques (one-shot, chain-of-thought, role-based, and positive/negative prompting)** to improve data quality and enhance QA workflows.
- **Achieved 90% recall** in developing an AI algorithm for detecting Alzheimer's disease through speech and text deep learning models.
- **30% improvement in a psychology test** by annotating extensive corpora with a dependency parser, enhancing data quality for machine learning projects.

Rocketbrew, Vancouver, British Columbia, Canada - Co-op

Computational Linguistic Engineer

April 2024 - July 2024

- **Achieved an 80% increase in engagement rates** by creating a message generation pipeline using NLP and LLMs for personalized outreach messages.
- **Built a knowledge base with detailed information on 8,000+ companies**, enabling targeted marketing and improving product sales strategies.
- **Scraped specific information from 10,000+ websites** by developing an agent scraper algorithm using NLP theory, embeddings and Selenium, streamlining data extraction.

AMAZON, Remote

Software Developer Engineer

July 2022 - August 2023

- **Increased 2,000+ data analysts decision-making efficiency for customer service** with advance dashboards in Javascript, ReactJS, D3.js, Redux RTK.
- **Empowered over 300+ e-commerce leaders** by architecting scalable services and RESTful APIs in TypeScript, ExpressJS, and NodeJS.

Business Intelligence Analyst

July 2021 - July 2022

- **Achieved 90%+ accuracy in machine learning models (regressions, time series, neural networks)**, enhancing operational **marketing decisions** using Scikit-learn and PyTorch.
- **30% boost** in product optimization and development through strategic ML model selection and feature engineering using EDA insights.
- **Achieved a 50% reduction in data processing time**, significantly accelerating project timelines by streamlining data preprocessing workflows with **Python**.

Information Technology Intern

January 2021 - July 2021

- **Benefited 9,000+ Amazon employees** by developing critical internal tools with JavaScript, React, Flask, NodeJS, enhancing usability and productivity
- **Analyzed 500,000+ customer service transactions** using Python (Pandas, Matplotlib) to visualize data, identify key trends, and inform strategic decisions.

AQSTICA S.A.S, Bogotá, Colombia

Business Intelligence Analyst

February 2018 - November 2020

- **20% improvement in targeted marketing and product strategies by segmenting customers** using applied statistics and unsupervised learning in Python (scikit-learn).

- Automated data cleaning and transformation with **Python, SQL and MongoDB**, enhancing data quality by **25%** and cutting processing time by **40%**.

Education

University of British Columbia, Vancouver, Canada - Master of Data Science in Computational Linguistics

Universidad de los Andes, Bogotá, Colombia - Master in Information Technology - Bachelor in Industrial Engineering - Bachelor in Arts

Fundacion Universitaria Jorge Tadeo Lozano, Bogotá, Colombia - Graduate Diploma in Project Management

Awards & Achievements

- COLFUTURO Scholarship *2023*
- Data Science for All (DS4A) *2018*

Skills

Data science: Python, R, SQL, Pandas, Numpy, Matplotlib, Seaborn, Altair, Scikit-learn (Sklearn), Pytorch, Neural Networks, Machine Learning, Deep Learning, Artificial Intelligence, Natural Language Processing(NLP), TensorFlow, Keras | **Software Development:** Flask, NodeJS, D3js, ReactJS, HTML, CSS, Redux, front-end, back-end, fullstack, Typescript, Javascript, Java, MongoDB GitHub, Git, Algorithms, Data structures, Figma, Adobe XD, UI/UX | **Other:** AWS (EC2, S3, Lambda, API Gateway), CDK, CloudFormation, DynamoDb, SageMaker, C++, D3js, ThreeJS
