

Daniel Andres Jimenez Riveros, MSc-MA

Vancouver, BC, Canada | da.jimenez166@gmail.com | linkedin.com/in/daniel-jimenez-78500117a

Professional Summary

Senior Software Engineer with 5+ years of full-stack development experience specializing in AI-powered applications, scalable web platforms, and team leadership. Proven expertise in JavaScript, TypeScript, Node.js, and modern frameworks with experience mentoring developers and delivering complex software solutions in Agile environments.

Work Experience

Arkangel AI, Remote

Senior Software AI Engineer

June 2024 - Present

- Targeted \$12B+ LATAM healthcare market by developing advanced AI applications for Electronic Health Records (EHR), implementing AI agents that improved diagnostic accuracy using Next.js, AWS, Azure, SQL databases, and Redis for caching optimization.
- Generated \$50k monthly revenue by designing and implementing end-to-end automated training ML platform using React.js, FastAPI, AWS SageMaker, PyTorch, and MongoDB with comprehensive model monitoring and deployment pipelines.
- Led cross-functional team of 4 developers and mentored 2 junior ML engineers on best practices for model development, code reviews, and deployment strategies, resulting in 30% faster and safer project delivery.

Insightly, San Francisco, CA & Colombia

Engineer Consultant

March 2025 - Present

- Improved case resolution rates by 45% by designing and implementing a comprehensive CRM solution using Next.js, Vercel deployment, Supabase authentication, and DynamoDB for scalable data management.

The University of British Columbia, Vancouver, British Columbia, Canada

Graduate Research Assistant

March 2024 - August 2024

- Achieved 90% recall in Alzheimer's detection model by building both the deep learning model and mobile application from scratch, developing and optimizing transformer-based architectures using PyTorch with advanced hyperparameter tuning, and creating a complete deployment pipeline for NLP and speech recognition applications.

AMAZON, Remote

Software Developer Engineer

July 2021 - August 2023

- Increased operational efficiency by 40% by architecting full-stack data visualization platform with real-time KPI tracking and predictive trend forecasting, leveraging ReactJS frontend, Node.js backend APIs, D3.js for interactive charts, and AWS cloud infrastructure for scalable data processing.

Intern

January 2021 - July 2021

- Built responsive UI components for critical dashboards serving 9,000+ Amazon employees, implementing reusable React components with TypeScript and modern CSS frameworks (Tailwind/Material-UI) to ensure consistent design patterns across the platform.
- Developed interactive data visualization interfaces that improved dashboard performance by 25%, creating custom chart components using D3.js and React, implementing real-time data updates, and optimizing component rendering for handling 500,000+ data points efficiently.

Education

University of British Columbia, Vancouver, Canada - Master of Data Science in Computational Linguistics

Universidad de los Andes, Bogotá, Colombia - Master in Information Technology - Bachelor in Industrial Engineering - Bachelor in Arts

Fundacion Universitaria Jorge Tadeo Lozano, Bogotá, Colombia - Graduate Diploma in Project Management

Awards & Achievements

- COLFUTURO Scholarship 2023
- Data Science for All (DS4A) 2018

Skills

Software Development: JavaScript, TypeScript, Node.js, React.js, Next.js, FastAPI, RESTful APIs, OAuth 2.0, Schema-first Development, Microservices Architecture, Full-stack Development | **Mobile & Frontend:** React Native HTML5, CSS3, Responsive Design, Progressive Web Apps, Component Libraries, State Management (Redux, Context API) | **Backend**

& Databases: SQL/NoSQL Databases, MongoDB, DynamoDB, Redis, PostgreSQL, Database Design, Data Modeling, Performance Optimization | **Cloud & DevOps:** AWS (Lambda, S3, SageMaker, CloudWatch), Azure, Docker, Kubernetes, CI/CD Pipelines, CDN, Load Balancers, Container Orchestration | **AI & Machine Learning:** PyTorch, TensorFlow, LLMs (GPT-4, Claude), NLP, Computer Vision, RAG Systems, Model Deployment, MLOps, Predictive Modeling | **Testing & Quality:** Unit Testing, Integration Testing, Automated Testing, Test-Driven Development, Code Reviews, Performance Testing, Security Best Practices | **Leadership & Collaboration:** Team Leadership, Technical Mentorship, Cross-functional Collaboration, Agile/Scrum, Code Reviews, Technical Documentation, Stakeholder Communication
