

Daniel Andres Jimenez Riveros, MSc-MA

Vancouver, BC, Canada | da.jimenez166@gmail.com | linkedin.com/in/daniel-jimenez-78500117a

Professional Summary

Data Scientist and former Software Developer at Amazon, specializing in machine learning and NLP. Aspiring to further my career in AI, with a focus on Deep Learning. Proficient in using AWS for scalable solutions

Work Experience

The University of British Columbia, Vancouver, British Columbia, Canada

Graduate Research Assistant

March 2024 - Present

- **15% enhancement in future patient outcomes** through developed and fine-tuned NLP deep learning models (LLMs) using PyTorch for the Health Department.
- **Streamlined policy-making for 121,000 war victims** using web scraping and RAG techniques with LangChain and LLMs in the Department of Economics.
- **30% improvement in a psychology test** by annotating extensive corpora with a dependency parser, enhancing data quality for machine learning projects.

AMAZON, Remote

Software Developer Engineer

July 2022 - August 2023

- **Increased 2,000+ data analysts decision-making efficiency** for **customer service** with advance dashboards in Javascript, ReactJS, D3.js, Redux RTK.
- **Empowered over 300+ e-commerce leaders** by architecting scalable services and RESTful APIs in TypeScript, ExpressJS, and NodeJS.

Business Intelligence Analyst

July 2021 - July 2022

- **Achieved 90%+ accuracy in machine learning models (regressions, time series, neural networks)**, enhancing operational **marketing decisions** using Scikit-learn and PyTorch.
- **30% boost** in product optimization and development through strategic ML model selection and feature engineering using EDA insights.
- **Achieved a 50% reduction in data processing time**, significantly accelerating project timelines by streamlining data preprocessing workflows with **Python**.

Information Technology Intern

January 2021 - July 2021

- **Benefited 9,000+ Amazon employees** by developing critical internal tools with JavaScript, React, Flask, NodeJS, enhancing usability and productivity
- **Analyzed 500,000+ customer service transactions** using Python (Pandas, Matplotlib) to visualize data, identify key trends, and inform strategic decisions.

AQSTICA S.A.S, Bogotá, Colombia

Business Intelligence Analyst

February 2018 - November 2020

- **20% improvement in targeted marketing and product strategies by segmenting customers** using applied statistics and unsupervised learning in Python (scikit-learn).
- Automated data cleaning and transformation with **Python, SQL and MongoDB**, enhancing data quality by **25% and cutting processing time by 40%**.

Education

University of British Columbia, Vancouver, Canada - Master of Data Science in Computational Linguistics - *Coursing*

Universidad de los Andes, Bogotá, Colombia - Master in Information Technology - Bachelor in Industrial Engineering - Bachelor in Arts

Fundacion Universitaria Jorge Tadeo Lozano, Bogotá, Colombia - Graduate Diploma in Project Management

Awards & Achievements

- COLFUTURO Scholarship 2023
- Data Science for All (DS4A) 2018

Skills

Data science: Python, R, SQL, Pandas, Numpy, Matplotlib, Seaborn, Altair, Scikit-learn (Sklearn), Pytorch, Neural Networks, Machine Learning, Deep Learning, Artificial Intelligence, Natural Language Processing(NLP), TensorFlow, Keras | **Software Development:** Flask, NodeJS, D3js, ReactJS, HTML, CSS, Redux, front-end, back-end, fullstack, Typescript, Javascript, Java, MongoDB GitHub, Git, Algorithms, Data structures, Figma, Adobe XD, UI/UX | **Other:** AWS (EC2, S3, Lambda, API Gateway), CDK, CloudFormation, DynamoDb, SageMaker, C++, D3js, ThreeJS
